**WHEN TWO QUESTION
MARKS (??)
BECAME 77 IN THE
UNIVERSITY**

Have you seen wonders before? On a daily basis we see several wonders happening around us or we hear about them. Have you ever heard about something and you begin to wonder how it happened? As a human being there are things you still wonder about because your rational mind cannot fathom it.

If you look at creation in general, you will see a lot of wonders because the creator does wonderful things, the things that are beyond human imagination. God the creator still does things in the affairs of men that are still baffling, he works wonders that men still find it difficult to understand.

As long as one is committed to God the person will keep seeing miraculous and wonderous things in his affairs which he might not be able to explain their details. If God is on your side your affairs will be full of so many wonders that you and those around you will keep wondering. In our story which we are looking at, there was a

Christian sister in the university who was not just Christian by name but by lifestyle and practice. The lecturer kept pestering her and she kept refusing, it continued till she wrote the lecturer's exam and he failed her. The lecturer just put two question marks (??) on her answer script. But a wonder happened. Is only God who can do that? At the point when the same lecturer wanted to record her scores he saw the two question marks (??) as 77 and that was how he recorded 77 for the Christian sister meaning in that course instead of an outright failure and carryover she got an A and she scaled through. Before the lecturer knew it, the sister was gone out of his hook.

In this life there are many traps and hooks that the enemies have set before several people, some are caught up with them and they get themselves into troubles, some other to the point of death. But the question to you is this,
