

you once left you have gone back into it. You may have been brought up in a godly Christian home where your father and mother are still serving the Lord but you know, you whom they know as a true Christian has totally abandoned the faith of your parents and gone the way of the world. Do not learn by experience in calamity from Satan, the Lord has been appealing to you to come back so that he can forgive and restore you, do not keep hardening your heart like that man in our story, the Lord is giving you that second chance, he said in Matthew 28:11, come unto me. He will forgive you, lift your pain and burden and give you his peace. Why not surrender to Jesus today before it is too late? Don't die suddenly and go to hell fire.

**(A True Life Story)**

**H**ave you heard of people say experience is the best teacher? That is true but pray never to experience certain occurrences in life. It is better you learn from the experience of others most especially when they are bitter experiences. Some people living today had wished they never experienced what they are going through presently. God is placing this tract in your hand so that you will learn from the experience the man we are about to learn about had.

There are two brothers, the elder and the younger. The elder gave his life to Jesus, surrendered his heart to him and became a believer in Christ. He became a true and genuine Christian and follower of the Lord Jesus. Along the line he took his younger brother to his church where he fellowships and the brother also gave his life to Jesus and became a preacher and was very fervent. He continued serving the Lord and preaching the gospel also to others and became a leader in the church.

Something unfortunate happened, this his younger brother backslid and stopped following the Lord. He became hardened in sin and getting involved in immorality with several women, at a point he went to the university and joined a cult group and eventually after several years could not graduate, he became a drop out from the university. It did not stop there, he got involved with a lady who got pregnant and gave birth to

a baby boy for him and God opened the eyes of his elder brother who saw the lady was a witch, he told his backslidden brother but he waved it off. The relationship continued without marrying the lady, she gave birth to four children for him.

Another tragedy struck. He had a terrible accident while driving a bike, a heavy duty truck hit him and chopped off some of his leg fingers away and badly damaged his body. He remained in a traditional home for the treatment of bones and has been going to the hospital for bone treatment. Now his two legs are broken, he uses crutches, he is weeping for all his act of backsliding and leaving the Lord, he has come to find out that woman is evil and has told her to go, the first son has become vagabond, left home and looking like a mad man, some of the other children have become possessed with witchcraft and today he is down in life though he has repented and got restored to the Lord, today he lives in pains and regret though he got his salvation back. Many water have passed under the bridge that he survived the accident, it was the mercy of God, he gave him a second chance but he had to live with some scars and sorrows all the days of his life.

Are you reading this and you know you were once following Jesus but now you have fallen and backslidden? You know your old past old life of sin that
